Mm SMALL-SCALE, MIXED

- Mmr** — capital intensive, medium productive with crop growing prevalent
- Mmc** — intensive, productive with crop growing prevalent
- Mmf** — medium intensive, medium productive with crop growing prevalent, perennial fruit crops important
- Mmv** — highly capital intensive, highly productive with temporary crops dominant
- Mmx** — low labour intensive, medium to high capital intensive, low to medium productive, semi-commercial
- Mmp** — very small-scale, intensive, with high land productivity, low labour productivity, semi-commercial with perennial fruit crops important
- Mmt** — medium labour intensive, capital intensive, productive, semi-commercial with perennial fruit crops important
- Mmm** — medium labour intensive, highly capital intensive, productive
- Mmh** — very small-scale, intensive, very high land productivity, medium labour productivity, with livestock breeding prevalent
- Mmg** — low intensive, medium productive, semi-commercial with livestock breeding prevalent
- Mmw** — medium labour intensive, highly capital intensive, medium productive, semi-commercial with livestock breeding prevalent
- Mma** — low labour intensive, capital intensive, productive with livestock breeding prevalent
- Mmi** — medium labour intensive, highly capital intensive, highly productive with livestock breeding prevalent

MI LARGE-SCALE, INTENSIVE

- MIm** — medium labour intensive, capital intensive, productive, mixed
- Mlc** — low labour intensive, capital intensive, productive with crop growing dominant

Me LARGE SCALE LABOUR EXTENSIVE

- MeI** — medium capital intensive, with low land-high labour productivity with crop growing prevalent
- Mem** — medium capital intensive, low land-high capital intensive, with low land, high capital productivity, mixed
- MeB** — medium to high capital intensive, with low land and very high labour productivity, with livestock breeding dominant
- Mea** — highly capital intensive, with very low land-high labour productivity, with livestock breeding dominant

S. SOCIALIZED AGRICULTURE

Se INCIPIENT

- Sec** — low to medium intensive, low productive, with crop growing dominant
- Sep** — low labour intensive, medium capital intensive, low to medium productive with crop growing prevalent
- Sem** — medium intensive, low to medium productive, mixed

Sm MIXED

- Smw** — low labour intensive, medium capital intensive, low productive
- Smm** — low labour intensive, capital intensive, medium productive
- Smg** — very low labour intensive, capital intensive, with high productivity of arable land and very low productivity of grassland
- Smy** — low labour intensive, capital intensive, low productive with crop growing prevalent
- Smc** — medium intensive, medium productive, with crop growing prevalent
- Smu** — medium labour intensive, capital intensive, productive with crop growing prevalent
- Smi** — low labour intensive, capital intensive, irrigated, productive to highly productive, with crop growing prevalent
- Sma** — low labour intensive, medium capital intensive, low productive with livestock breeding prevalent
- Smd** — medium labour-highly capital intensive, productive with livestock breeding prevalent

Sg INTENSIVE CROP GROWING AND EXTENSIVE LIVESTOCK BREEDING

- Sgt** — intensive, temporary industrial crop growing with extensive grazing

Sh INTENSIVE SPECIALIZED CROP GROWING

- Shy** — medium labour intensive, highly capital intensive medium productive crop growing with perennial fruit crops important
- Shv** — productive, highly specialized in vegetables growing
- Shh** — industrialized, highly intensive, highly productive, highly specialized horticulture

Ss — SPECIALIZED PERENNIAL CROPS GROWING

- Ssf** — medium intensive, medium productive fruit crops growing
- Ssc** — low labour intensive, capital intensive, medium productive, industrial crops growing
- Sc** LABOUR EXTENSIVE
- Scm** — medium capital intensive, with very low land productivity, medium labour productivity, mixed
- Scc** — medium capital intensive, with very low land productivity, medium labour productivity, highly specialized in temporary crops growing

A. SPECIALIZED LIVESTOCK BREEDING

Ar ANIMAL GRAZING

- Arr** — market oriented (reindeer)
- Aro** — socialized, a — reindeer

Ad INDUSTRIALIZED LIVESTOCK BREEDING

- Add** — market oriented
- Ado** — socialized

Non agricultural areas

- Forests, rocks etc.
- waters
- larger built up areas and state capitals
- non European territories
- boundaries of states
- boundaries of some higher level units
- boundaries of administrative units or agricultural regions

The delimitation of non agricultural areas was based on:
— LAND USE MAP OF EUROPE 1:2 500 000, Ed. E. Csáti, Budapest 1980
— WORLD ATLAS OF AGRICULTURE, Ed C. Vanzetti Novara 1969—1977
— WORLD MAP 1:2 500 000
