

Relative cover (%) of peat soils (0–30cm), per country

Peat Cover (%)

Relative cover (%) of peat and peat-topped soils (0–30cm), per country, based on the European Soil Database

MAP INFORMATION

Spatial coverage: 27 Member States of the European Union where data available.

Pixel size: 1km
Projection: ETRS89 Lambert Azimuthal Equal Area
Temporal coverage: 2006

Input data - source
1:1,000,000 European Soil Database (v1.0)
Organic Carbon Content (%) for the topsoils of Europe at 1km x 1km
