

Soil Atlas of Africa

Availability of Metrial

North Africa

Dr Bashir Nwer

Availability of Material North Africa

- 1- Introduction
- 2- Material Availability
- 3- Libyan Soil Information System
- 5- Conclusion

1- Introduction

1-1 Soil Types in North Africa

1-2 Soil Survey in North Africa (Libya as example)

1-3 Soil Classification in North Africa

2- Material Availability

2-1 Material and Data Source

2-2 Data format and Scale issues

2-3 Soil Survey Institutions

3-Libyan Soil Information System

3-1 Soil Classification Maps

Regional scale 1:250,000 and 1: 50, 000

Country scale 1:500,000

3-2 Tabular soil Data

Soil Morphological, Chemical and physical attributes

3-3 Land cover maps

3-3 Land Suitability classification

FAO Methodology

4- Conclusion

1- Scale and Format Issues

2- Classification Systems

3- Institutional Arrangements related to Soil mapping
