

THE MAP IS COMPILED BY THE SOIL - ECOLOGICAL EXPEDITION OF THE USSR V/O, SELKHOZPROMEXPORT 1980

- TOPOGRAPHIC SYMBOLS**
- Settlements
 - Landmark objects: separate constructions
 - Motor way
 - Road
 - Unpaved road
 - Wadi from 10 to 50 m wide
 - Coastline
 - Mapping unit boundary of agricultural land
 - Wood
 - Land excluded from survey (exclusion): a-occupied by industrial enterprises and other special objects b-occupied by mines and quarries
 - SPECIAL SYMBOLS**
 - Soil salinity mapping unit

- SALT HORIZON POSITION**
- S_s Salinish (salts in the layer of 0-30 cm)
 - S_c Saliniferous (salts in the layer of 30-80 cm)
 - S_{cs} Deeply saline (salts in the layer of 80-120 cm)
 - N Nonsaline (salts are absent, or present in the layer over 120 cm)
- SALT MAXIMUM POSITION**
- \ominus From 0 to 30 cm
 - \odot From 30 to 80 cm
 - \bullet From 80 to 120 cm
- DEGREE OF SALINITY**
- 1 Weak
 - 2 Medium
 - 3 Strong

Explanations: Associations of soils according to their salinity are shown by a combination of indices of an association components. Share of the secondary components of an association is given in per cent up to 25%; from 25% to 50%.
