Temporary Dataset Download: Global Landform classification

ID	123905
Date - Time	Fri, 01/16/2026 - 03:33
Name of User	William Nicholas
Organization	Other
Type of Organization	Other (specify)
-- Other	Individual Researcher not affeliated with any organisation
E-mail	tony1nicholas@gmail.com
Purpose	to examine landform classifications in Australia
Notes	

Notifications:

1. The data have been prepared for use by the EU Soil Observatory in the Joint Research Centre (JRC) of the European Commission.
2. The data were developed for research purposes of the JRC (European Commission). The JRC does not accept any liability whatsoever for any error, missing data or omission in the data, or for any loss or damage arising from its use. The JRC agrees to provide the data free of charge but is not bound to justify the content and values contained in the databases.
3. The permission to use the data specified above is granted on condition that, under NO CIRCUMSTANCES are these data passed to third parties. They can be used for any purpose, including commercial gain.
4. The user agrees to:
   a) Make proper reference to the source of the data when disseminating the results to which this agreement relates;
   b) Participate in the verification of the data (e.g. by noting and reporting any errors or omissions discovered to the JRC).
