

Temporary Dataset Download: Erosion potential method (EPM)

ID	124783
Date - Time	Fri, 02/06/2026 - 13:36
Name of User	Oisin Moodliar Walsh
Organization	TU Dublin
Type of Organization	University
-- Other	
E-mail	d24127898@mytudublin.ie
Purpose	I am conducting a project in University, to build a bridge 6m x 0.6m length x width, in a mountainous region of mongolia, i would like to research the erosion potential in the area and the data here would be very helpful. Thank you
Notes	

Notifications:

1. The data provided has been prepared for use by internal research activities in the Joint Research Centre (JRC) Ispra in collaboration with University of Ljubljana.
2. The research was done within the activities of the EU Soil Observatory group on Soil Erosion.
3. The data are the result of JRC research activities and are primarily made available for further research. The JRC does not accept any liability whatsoever for any error, missing data or omission in the data, or for any loss or damage arising from its use. The JRC agrees to provide the data free of charge but is not bound to justify the content and values contained in the databases.
4. The permission to use the data specified above is granted on condition that, under NO CIRCUMSTANCES are these data passed to third parties. They can be used for any purpose, including commercial gain.
5. The user agrees to:
 - make proper reference to the source of the data when disseminating the results to which this agreement relates;
 - Participate in the verification of the data (e.g. by noting and reporting any errors or omissions discovered to the JRC).
