

## Temporary Dataset Download: Soil Carbon Risk Index

ID	124798
Date - Time	Sat, 02/07/2026 - 19:41
Name of User	Nasir Mehmood Khan
Organization	Scotland's Rural College (SRUC)
Type of Organization	University
-- Other	
E-mail	Nasir.Khan@sruc.ac.uk
Purpose	I am doing my PhD on studying the impact of arable-ley rotations on SOC and its fractions and trying to use my siter as test bed to further contribute in this SOC risk dataset which may help to develop practices that alter the risk factors by lowering these SOC losses esp. MAOC
Notes	

### Notifications:

- The data provided has been prepared for use by internal research activities in the Joint Research Centre (JRC) Ispra.
- The data are the result of JRC research activities and are primarily made available for further research. The JRC does not accept any liability whatsoever for any error, missing data or omission in the data, or for any loss or damage arising from its use. The JRC agrees to provide the data free of charge but is not bound to justify the content and values contained in the databases.
- The permission to use the data specified above is granted on condition that, under NO CIRCUMSTANCES are these data passed to third parties. They can be used for any purpose, including commercial gain.
- The user agrees to:
  - a) Make proper reference to the source of the data when disseminating the results to which this agreement relates;
  - b) Participate in the verification of the data (e.g. by noting and reporting any errors or omissions discovered to the JRC).
