

## [Temporary Dataset Download: Soil biodiversity dna eukaryotes](#)

ID	130279
Date - Time	Wed, 06/17/2026 - 15:51
Name of User	Junqi Tang
Organization	Instituto de Recursos Naturales y Agrobiología de Sevilla
Type of Organization	Research Organization
-- Other	
E-mail	2023201015@stu.njau.edu.cn
Purpose	The dataset will be used for academic research and the preparation of a peer-reviewed scientific publication.
Notes	

### Notifications:

1. The data provided has been prepared for use by internal research activities in the Joint Research Centre (JRC) Ispra in collaboration with University of Vigo . In addition, other research organisations have participated in this research. The research activities support the LUCAS soil campaign. The LUCAS Soil sample collection is supported by the Directorate-General Environment (DG-ENV), Directorate-General Agriculture and Rural Development (DG-AGRI) and Directorate-General Climate Action (DG-CLIMA) of the European Commission.
2. The data are the result of JRC research activities and are primarily made available for further research. The JRC does not accept any liability whatsoever for any error, missing data or omission in the data, or for any loss or damage arising from its use. The JRC agrees to provide the data free of charge but is not bound to justify the content and values contained in the databases.
3. The permission to use the data specified above is granted on condition that, under NO CIRCUMSTANCES are these data passed to third parties. They can be used for any purpose, including commercial gain.
4. The user agrees to:
  - make proper reference to the source of the data when disseminating the results to which this agreement relates;
  - Participate in the verification of the data (e.g. by noting and reporting any errors or omissions discovered to the JRC).
