Temporary Dataset Download: Soil Erodibility (K- Factor) High Resolution dataset for Europe

ID	131079
Date - Time	Thu, 07/09/2026 - 16:44
Name of User	Junaid Ahmad
Organization	Free University of Bozen, Bolzano
Type of Organization	University
-- Other	
E-mail	agri.junaid1205@gmail.com
Purpose	Non-commercial Research on soil water balance dynamics in Alpine regions, Italy
Notes	

Notifications:

1. The data provided has been prepared for use by internal research activities in the EU Soil Observatory, JRC Ispra.
2. The JRC does not accept any liability whatsoever for any error, missing data or omission in the data, or for any loss or damage arising from its use. The JRC agrees to provide the data free of charge but is not bound to justify the content and values contained in the databases.
3. The permission to use the data specified above is granted on condition that, under NO CIRCUMSTANCES are these data passed to third parties. They can be used for any purpose, including commercial gain.
4. The user agrees to:
   a) Make proper reference to the source of the data when disseminating the results to which this agreement relates;
   b) Participate in the verification of the data (e.g. by noting and reporting any errors or omissions discovered to the JRC).
