

Temporary Dataset Download: REDES 2.0

ID	132562
Date - Time	Fri, 08/21/2026 - 15:04
Name of User	Jérémy Gorse
Organization	Syndicat mixte du Pays de Valençay en Berry
Type of Organization	Public Administration (Ministries, Agencies, Municipalities, ...)
-- Other	
E-mail	gorse.jeremy@outlook.fr
Purpose	The data will be used as part of a second-year Master's internship to assess rainfall erosivity and its influence on diffuse pollution vulnerability in a French watershed.
Notes	

Notifications:

- The data provided has been prepared for use by internal research activities of the Joint Research Centre (JRC) in collaboration with the EUSO Working Group on Soil Erosion.
- **Users who may use the REDES 2.0 for scientific purposes and publications are requested to be in contact with EUSO Team: ec-esdac@ec.europa.eu**
- The data are the result of JRC research activities and are primarily made available for further research. The JRC does not accept any liability whatsoever for any error, missing data or omission in the data, or for any loss or damage arising from its use. The JRC agrees to provide the data free of charge but is not bound to justify the content and values contained in the databases.
- The permission to use the data specified above is granted on condition that, under NO CIRCUMSTANCES are these data passed to third parties. They can be used for any purpose, including commercial gain.
- The user agrees to:
 - a) Make proper reference to the source of the data when disseminating the results to which this agreement relates;
 - b) Participate in the verification of the data (e.g. by noting and reporting any errors or omissions discovered to the JRC).
