

Temporary Dataset Download: Global rainfall erosivity projections for 2050 and 2070

ID	132569
Date - Time	Fri, 08/21/2026 - 22:40
Name of User	Yonelis Vasquez
Organization	Universidad de Panamá
Type of Organization	University
-- Other	Universidad de Panamá- Facultad de Ciencias Agropecuarias
E-mail	yonelisvasquez23@gmail.com
Purpose	Investigación de Tesis de Maestría en Ciencias Agrícolas con especialidad en Manejo de suelos y Aguas. Estoy realizando mi trabajo de grado y requiero de estas proyecciones para conocer el estado de mi país en esos 2 años analizados por ustedes. espero contar con su cooperación.
Notes	

Notifications:

1. The data provided has been prepared for use by internal research activities in the Joint Research Centre (JRC) Ispra in collaboration with external partners who work to further elaborate the Global Rainfall Erosivity Database (GloREDa).
2. The data are the result of JRC research activities and are primarily made available for further research. The JRC does not accept any liability whatsoever for any error, missing data or omission in the data, or for any loss or damage arising from its use. The JRC agrees to provide the data free of charge but is not bound to justify the content and values contained in the databases.
3. The permission to use the data specified above is granted on condition that, under NO CIRCUMSTANCES are these data passed to third parties. They can be used for any purpose, including commercial gain.
4. The user agrees to:
 - make proper reference to the source of the data when disseminating the results to which this agreement relates;
 - Participate in the verification of the data (e.g. by noting and reporting any errors or omissions discovered to the JRC).
