

Temporary Dataset Download: Saline and Sodic Soils in European Union

ID	133409
Date - Time	Mon, 09/14/2026 - 14:26
Name of User	Antonio Benvenuti
Organization	UNEP/GRID-Geneva
Type of Organization	Research Organization
-- Other	
E-mail	antonio.benvenuti@unepgrid.ch
Purpose	Explore method to assess land degradation
Notes	

Notifications:

1. The data of the "Map of Saline and Sodic Soils in the EU" have been prepared for use by the Land Resource Management Unit (Institute for Environment & Sustainability) of the Joint Research Centre (JRC) of the European Commission.
2. The data of the "Map of Saline and Sodic Soils in the EU" were elaborated by the DG Joint Research Centre of the European Commission (JRC) through the processing of the data of the European Soil Database v2 (ESDB v2) which was developed by JRC in collaboration with the European Soil Bureau Network, which holds a joint copyright to the data with the European Commission. The data are the result of a JRC internal research activity; the underlying model and resulting data still need to be validated and verified; no formal quality check on the data has been made yet. The JRC, on behalf of the Commission, does not accept any liability whatsoever for any error, missing data or omissions in the data, or for any loss or damage arising from its use. The JRC, on behalf of the Commission, agrees to provide the data free of charge but is not bound to justify the content and values contained in the databases.
3. The permission to use the data specified above is granted on condition that, under NO CIRCUMSTANCES are these data passed to third parties. They can be used for any purpose, including commercial gain.
4. The user agrees to:
 - a) Make proper reference to the source of the data when disseminating the results to which this agreement relates;
 - b) Participate in the verification of the data (e.g. by noting and reporting any errors or omissions discovered to the JRC).
