Temporary Dataset Download: Clay mineral inventory in soils of Europe based on LUCAS 2015 survey soil samples

ID	136517
Date - Time	Tue, 11/17/2026 - 13:55
Name of User	Yingfan Wang
Organization	Zhejiang University
Type of Organization	University
-- Other	
E-mail	yfwang617@163.com
Purpose	I am a PhD student researching soil carbon, and I would like to use this dataset to study the relationship between soil minerals and soil carbon.
Notes	

Notifications:

1. The data provided has been prepared for use by internal research activities in European Soil Data Centre (JRC Ispra) in collaboration with external organizations as documented in the associated publication.
2. The data were developed for research purposes of the JRC (European Commission). The JRC does not accept any liability whatsoever for any error, missing data or omission in the data, or for any loss or damage arising from its use. The JRC agrees to provide the data free of charge but is not bound to justify the content and values contained in the databases.
3. The permission to use the data specified above is granted on condition that, under NO CIRCUMSTANCES are these data passed to third parties. They can be used for any purpose, including commercial gain.
4. The user agrees to:
   a) Make proper reference to the source of the data when disseminating the results to which this agreement relates;
   b) Participate in the verification of the data (e.g. by noting and reporting any errors or omissions discovered to the JRC).
