

Eurasian Soil Partnership

- Chair of EASP

Gulchekhra Khasankhanova
(Tashkent, Uzbekistan)

- Vice-chair

Yuri Mosi (Moldova)

Implementation plan

- Pillar 1:

The report on barriers hampering the use of SSM practices has been prepared

The test sites for SSM have been chosen in Uzbekistan (in cooperation with ICARDA)

The regional Implementation plan for VGSSM is under preparation

Implementation plan

- Pillar 2:

The Eurasian Soil Portal is working a <http://eurasian-soil-portal.info>

Advertising materials (brochures, posters, calendars, cartoons) were prepared promoting the knowledge of soil and World Soil Day.

The book Sustainable Management of Soil Resources in the Eurasian Region is under preparation

The textbook on SLM for higher education programs in the agrarian universities is under preparation (in cooperation with ICARDA)

Awareness raising materials

Posters

Leaflets

Cartoons

Publications under EASP

- Land Resources and Food Security in Central Asia and the Caucasus (2016)
- Case studies Food Security in Eurasia (2016) with chapters devoted to SSM
- Handbook for Saline Soil Management (Russian ver. 2017, English ver. 2018)

World Soil Day celebration (in cooperation with World Bank)

- 2016, Timiryazev Russian Agrarian University, Moscow
- 2017, Lomonosov Moscow State University
- 2018, Dokuchaev Soil Museum, Saint-Petersburg
- *2019, Sochi*

Implementation plan

- Pillar 3:

Research studies on the Economics of Land Degradation in Russia, Belarus, Armenia were implemented and published

In September 2017, the Soil Salinity Management training was performed in Kharkiv, Ukrain

The contest of small research projects was organized, performed and published in the peer-reviewed journal (2017-2018)

The online courses for Eurasian partners on Food Security and SLM were given (2017)

Implementation plan

Person in charge
Oleg Golozubov

- Pillar 4 (EurSIS)

Training courses on digital soil mapping and soil information processing (Almaty, Kazakhstan, 2016)

The workshop on the practical issues of the functioning of the EurSIS (Moscow, Russia, 2017)

The regional workshop “Development of expert systems based on large-scale soil geographical databases” (Moscow, Russia, 2018)

Training courses for partners (Kyrgyzstan, 2018)

Participation in the Skype-conferences of the Pillar 4 WG discussing SoilSTAT Concept Note, CountrySIS_Survey, CountrySIS concept note (2018)

Implementation plan

Person in charge
Olga Yakimenko

- Pillar 5 (EUROSOLAN):

Steps forward:

- **Step 1** – National network (supported by the Russian Ministry of Agriculture) – The nomination of the Leading Soil Lab (CINNAO) → open call for soil labs → registration of all soil laboratories who expressed their interest in the GLOSOLAN network (Rome) → ring test
- **Step 2** – Subregional network including countries from Eurasia – **Conference in Moldova (September 2019)**
- **Step 3** – Europe / Eurasia joint network - How to achieve it? Who is responsible from Europe?

Thank you for attention!
