🕒 32 working hours per week
🏠 Berlin, Pfalzburger Str. 43/44

Your contact person:

👤 Mr. Kaeding - 030/86880119 - jobs@ecologic.eu

📅 starting 1 November 2017
⌚ at first limited to 2 years
with the opportunity for a permanent contract

As a **(Junior) Researcher in the field of EU agriculture, soil and climate policies** you would support our team in ongoing projects with a particular focus on agriculture, soils and climate change. In the short to medium term you would also support the acquisition of new projects in this area with the goal of permanent employment.

What do we offer?

- ✓ a chance to work on challenging projects with a high level of relevance for policy
- ✓ a pleasant working environment in an international, intercultural and interdisciplinary team
- ✓ creative latitude which allows you over time to set individual priorities and develop your own area of expertise
- ✓ a flexible- and family-friendly working environment based on a flat hierarchy
- ✓ an attractive salary and individual opportunities for professional development

What do we expect from you?

- ✓ a relevant Masters degree (e.g. agricultural economics, geography, environmental management)
- ✓ 1-2 years of experience in analysis or implementation of (one or more) EU policies for agricultural land management (Master's Thesis work can count towards experience)
- ✓ working knowledge of CAP
- ✓ familiarity with sustainable management practices in agriculture and their impact on soil and/or climate protection
- ✓ excellent analytical skills, written and spoken English
- ✓ fluent knowledge of German and another European language is an advantage
- ✓ ability to work independently and within an interdisciplinary team

What does the position entail?

- ✓ you will support the evaluation of policies which affect agriculture's impacts on soils and climate
- ✓ you will conduct case studies, including desk-based research, interviews and potential study-site visits
- ✓ you will contribute to the development of policy recommendations and integration of evaluation results in other policy areas (e.g. water, implementation of SDGs)
- ✓ you will support project acquisition, management and preparation of project reports and scientific publications

How should you apply?

Please apply exclusively through our online application form, which you will find on our website: www.ecologic.eu/researcher-agriculture

You will need to provide the following documents:

- ✓ Cover letter
- ✓ CV
- ✓ Certificates
- ✓ a writing sample in English of up to 20 pages (if applicable, also a writing sample in German)

For questions regarding your application please contact our Human Resources team. Applications are open until 30 July 2017.

We look forward to receiving your application!

Ecologic Institute conducts inter- and transdisciplinary environmental policy research.

Ecologic Institute was founded in 1995 and collaborates closely with other European and international bodies, including active participation as a member of the Ecological Research Network (Ecor-net). Today, the more than 100 individuals at Ecologic Institute work in a variety of international and interdisciplinary project teams.
